that I think support rather than challenge our understanding of the world, and for that you stand for it against 1000 books, and for that you're in need of the community. It's an excellent book.

There's a lot of talk about the need for a high-quality workforce, but what we have is a workforce that's not doing well. We need to get our workforce up to speed on the skills that are needed for the jobs of the future. We need to make sure that we have a workforce that is ready to meet the challenges of the 21st century.
